

My Name: _____

Build Your Own Pyramid

You can build your own Egyptian pyramid! It's fun and easy to do. Just follow these steps:

1. Color in the four triangles that make up your pyramid's walls.
2. Use your scissors to cut out your pyramid along the dotted lines. Remember to be careful!

3. Fold each of the pyramid's walls together so the tops of the pyramids touch each other. Then fold the tabs and tape or glue them to the pyramid walls.
